Carbon Neutral Floors™

Interface®

Blazing New Paths

Colour is a powerful design tool. It can lift and create mood, aid in navigation, define space, and much more.

Our Open Air Transitions & Accents adds colour to one of your favorite neutral shades, Nickel, in Open Air 403 and Open Air 404 patterns.

These styles create a subtle shift in colour and texture to move you into the muted coloured accents.

Explore how Open Air allows you to tailor these connections and transitions to create a cohesive look that addresses each need within your space.
