## END OF LIFE WARRANTY - ReEntry™ Carpet Tile Recycling Programme

Interface Modular Carpet (China) Co. Ltd (“**Interface**”) is committed to delivering sustainable solutions for the supply and installation of modular carpet.

The ReEntry programme aims to bring what we believe is the most sustainable and cost effective solution to keep vinyl backed carpet tile products out of landfill, while reducing the impact on the environment.

Using proprietary technology, vinyl backing is first separated from the nylon fibres of used **Interface** GlasBac™ and GlasBacRE carpet tiles. The vinyl backing is recycled and manufactured by Interface into new carpet tile modules called GlasBacRE. Separated nylon is sent to our fibre partners and recycled into new nylon for use in the carpet and other industries. New nylon fibre, with recycled content, is returned to Interface, tufted and combined with recycled backing to create carpet tiles with the highest recycled content currently available in the industry. This recycling process is known as ReEntry, and is recognized as having been the world’s first carpet tile recycling program working towards closing the loop on non- renewable raw materials and fuel.

In this Warranty, the bolded terms shall have the meanings set out herein.

This Warranty is for the benefit of the current legal owner (“**Owner**”) of any in-situ and in-use GlasBac and GlasBacRE carpet tiles regardless of age and manufacturing origin (“**Carpet Tile**”). The **Carpet Tile** must have been originally installed in accordance with Interface’s Recommended Installation Instructions applicable at the time of installation and have a clearly visible GlasBac or GlasBacRE emboss on the underside.

1. Subject to the terms and conditions set out below, Interface warrants that, at the **Owner’s** discretion, it will reclaim the **Carpet Tile** and will reprocess it into backing materials for use in manufacturing new GlasBacRE modules:
2. The **Owner**, or their appointed contractor, shall be responsible for and meet all costs or charges in respect of:
  - (a) The uptake of the **Carpet Tile** and all associated furniture relocation and computer relocation;
  - (b) Sorting the **Carpet Tile**;
  - (c) Packing the **Carpet Tile** on pallets and movement of the **Carpet Tile** to the loading dock.
3. To exercise your rights under this Warranty, the **Owner** must:
  - a) Contact Interface at least 14 days prior to the date required for reclamation of the **Carpet Tile**;
  - b) Remove the **Carpet Tile**, pack the **Carpet Tile** onto pallets and deliver to the loading dock or vehicle entrance located on or near the **Property**, all in accordance with Interface specifications.
